

INLA PLANTING AND CARE GUIDES

*A useful tool to give your customers
For successful planting procedures*

These convenient guides teach your customers how to select quality plants then how to plant and care for the plants they buy. The guide discusses plant size, growth, tolerances, hardiness, soil requirements, soil pH, location and purposes for placing plants in certain spots.

This brochure also informs your customers about the forms in which plants are offered: bare root/packaged, field-potted, containerized/container grown, balled and burlapped (B&B) and tells about using a tree spade for transplanting large trees. Important points about site are discussed including how to dig a planting hole and the process of planting the plant. Care after planting, including irrigation and watering, mulching, fertilization, pruning and staking are all covered to inform your customer of the right ways to care for a plant after the planting procedure has taken place.

There is a place for your business name on the front and the back of this brochure.

Successful customers come back for more purchases.
