Idaho Nursery & Landscape Association Congratulates One “Certified Nursery Professional”

The Idaho Nursery & Landscape Associations’ certification programs recognize individuals as trained professionals with skills, knowledge and expertise in the horticulture industry. During the 2016 Idaho Horticulture Expo, several people showed their commitment to professional excellence by taking exams.

The Certified Nursery Professional (CNP) exam includes two parts; written examination and plant identification. The written portion consists of 200 questions based on the principles and practices of all aspects of the nursery industry. The plant identification portion has 50 plants that are selected and the genus, species, cultivar and common name are to be identified.

The following individual obtained a Certified Nursery Professional certificate ***CNP***:

Kayla Ruzicka, Jayker Re-Wholesale Nursery, Meridian
