Idaho Nursery & Landscape Association (INLA) Congratulates Four New “Certified Nursery Professional” One New “Certified Plant Diagnostician”

The Idaho Nursery & Landscape Association and the College of Western Idaho are partners in bringing the exam to Idaho. INLA and CWI are committed to enhancing the level of professionalism in the Green Industry.

The Certified Nursery Professional (CNP) Exam consists of two portions, a 200-question written portion that tests knowledge in 9 different domains of horticulture; and a Plant Identification exam which includes 50 plants and the candidates identify their genus, species, cultivar and common name.

INLA recognizes these individuals as trained professionals with skills, knowledge and expertise in the landscape industry. The following candidates earned certification:

Graham Knight, CNP, Idaho Botanical Gardens, Boise

Colleen Molinengo, CNP, College of Western Idaho, Boise

Andrea Edgell, CNP, Lush Custom Gardening, Boise

Liliana Guterrez, CNP, Franz Witte Nursery, Nampa

The Certified Plant Diagnostics (CPD) has a 150-question written portion that tests knowledge in diagnostics of plants.

Zachary Heffernan, CPD, Franz Witte Nursery, Boise
